GPAX 3.87

SOFT SKILLS

- Client communication
- Requirements and PRDs
- Customer service
- Teamwork
- Problem solving

LANGUAGES

Thai	Native
English	Intermediate

NATTAPHAT NONTHAWONG

Software Engineer & Web Developer

PROFILE

Software engineering graduate. At WF LABs, the studio I run with my brother, I've built 7 websites, systems and LINE apps since June 2026, 6 of them for clients. I agree the requirements with the client in a PRD before writing code.

EXPERIENCE

Software Engineer
Jun 2026 – Present
WF LABs, Bangkok

- **500DAY**: website for a construction company, plus a stock system where crews request materials by phone and the warehouse scans a QR to hand them out
- **Pink Symphonic**: LINE bot where concertgoers sign up for a free photo and the organiser gets a customer list; on show day I signed up **465+ people** at the door
- **MeMo**: our own office assistant in LINE. Type the way you talk and it saves notes, reminders, expenses and team tasks
- **E-Leave**: online leave system for the Ministry of Interior's central office and 12 regional centres, where staff request leave and supervisors approve it
- **FDC**: aiming aid prototype for the Royal Thai Army Artillery. A device on each gun sends its position and heading to the fire direction centre
- **Blue Ocean Traders**: Thai/English catalogue site for a building materials importer, with a quote request on every page and an admin panel for staff
- **ONSTAGE**: website for a concert promoter, with a ticketing system ready to switch on: seat map, queue, payment and QR e-tickets

Content & Marketing
Jun 2026 – Present
WF FixIT, our computer repair shop

- Film and edit TikTok and Facebook clips of our repair jobs: **44 clips**, 2–3 a week

Software Developer Intern
5 Jan – 24 Apr 2026
Army Cyber Center, Royal Thai Army

- Built a personnel management system for cyber course trainees: React, Vite, shadcn/ui, Tailwind CSS, TanStack Query, React Router v6
- Security training: networking and VLANs, VMware, pfSense, Splunk, Snort, Nmap, Metasploit, OWASP Top 10

Service Staff Hachiban Ramen, part-time — Jun – Aug 2024

Juice Bar Crew Boost Juice Bars, part-time — Apr – Jul 2023

SKILLS

Languages	TypeScript, JavaScript, Python, SQL, C++
Front end	React, Next.js, Vite, Tailwind CSS, shadcn/ui
Back end and data	Node.js, Express, FastAPI, PostgreSQL, Prisma
LINE	Messaging API, LIFF
DevOps	Docker, GitHub Actions, Vercel, Cloudflare, Linux
Hardware	ESP32-S3, FreeRTOS, LoRa, MQTT
Design	Figma, Photoshop
